

The Borough of Boyertown's annual fire hydrant flushing is scheduled to take place between October 19th and November 6th, 2020. Fire hydrants will be flushed between the hours of 7:00 a.m. and 3:30 p.m. Monday through Friday. Flushing hydrants can disrupt settled particles making the water discolored and cloudy. It is suggested that prior to using water in your home you run **COLD** water in your bathtub for at least 3 minutes or until you notice a temperature change. If the water is discolored or cloudy, flush the lines until clear. This may take as long as 10-15 minutes in order to clear the line of any discoloration you may observe. If you have any questions, please call Inframark at 610-369-3041.
